Auto Strike May End Monday

Thompson At Scene Of Conflict

OSAWWA, April 16.—Union officials, conferring here on the General Motors strike situation, will return to Oshawa Sunday to renew their demands for a meeting at an agreement with the company. It was learned on good authority that the Oshawa local union met with Homer Martin, international president of the United Automobile Workers of America, and Hugh Thompson, union organizer, who arrived here today.

Thompson, United Automobile Workers' general secretary, arrived Saturday evening from Detroit to make 3,700 General Motors strikers, today said. I think Hepburn's statement that he (Homer Martin) will not be taking part in any negotiations between the unions and management.

Thompson returned to Oshawa, where the strike had been under way since April 8, with Homer Martin, international president, who addressed a Windham Motors meeting last night. Martin, along with other former Baptist minister, also had statements made by the United Automobile Workers' strike leaders appearing in the strike picture.

"He profits in not this province, is he?" he remarked. "I thought he was outside Canada. I thought he was in the States." Massey and Massey were having a meeting with the District Board here.

Martin announced he would telephone C. E. Wilson, vice-president of the UAW, to have him come to Detroit, to arrange for a conference today with Canadian company officials, and to discuss the possibility for an "amicable settlement" and admitted the "possibility" the men might be called in to help.

Martin's appearance here follows Gov. George M. H. Thompson's announcement that national and international union heads decided to leave strike settlements negotiations in hands of the Canadian unions and Canadian company executives.

HEAVIER TAXES

WILL BE SOUGHT
BY CHAMBERLAIN

LONDON, April 16.—Increased business burden predicted for the coming fiscal year will cause a cut in the main tax rates, the Chancellor of the Exchequer said today in the budget. The tax will be raised from £30,000,000 (£30,000,000) in additional revenue.

Five possible sources listed, of which the two Chamberlain predicted will be the three. They were:

1—Increase income in the 1-pence tax.
2—Creation of a new tax on drugs and cosmetics.
3—Raising of eightpence per pound in tobacco tax.
4—Creation of one penny per gallon in gasoline tax.
5—Restoration of the 1-pence surcharge on the stamp duty of the 14-million rate now in effect.

Editorial Edmonton's 25-Year Record

INTEREST rates paid by the City of Edmonton of 4%, 5%, 5½, 6 and 7 per cent on its debenture debt average 5.24 per cent.

The Fortin scheme, accepted by a majority of the aldermen and supported in the legislature by Messrs. Duggan, Barnes, Morris and O'Connor, provides no reduction in interest rates.

The Edmonton M.L.A.'s named and Aldermen Ogilvie, McCrae, Cleely, Elisha East, Macdonald and Basset voted against permitting a plebiscite.

Total amount of interest paid \$37,926,000

In plain words we have paid over \$5,000,000 more in interest charges than our total gross debt for the year 1936.

Cut wages, confiscate the homes and business property of our citizens, but do not touch high interest rates—interest must be maintained! That is the policy our elected representatives are supporting.

The fact that Great Britain, United States, Australia and New Zealand have cheap money and are enjoying a building boom is no reason why Edmonton or Alberta should demand cheaper money. Our aldermen and members of the legislature so voted.

Hitler Finds It Easy To Explain German Defeats

By GRANT DEXTER

London Bureau of The Edmonton Bulletin and Winnipeg Free Press

MONTEVIDEO, Uruguay.—Having established that the Jews, Communists and the parliamentary system of government are the greatest enemies of the German people, Hitler finds it easy to explain Germany's defeats and failures.

Germany lost the war; the allies did not win it. Germany lost because the Allies were the greater powers. Hitler's explanation of the character of the people on the home front. Hitler's explanation of the defeat after the war because he was betrayed by the parliamentary system—himself the tool of the Jews.

It is important to note that Hitler goes way with Hitler in all his speeches.

CIVIC WORKERS ASK COUNCIL FOR PAY CUTS

Continued from Page One

from April 1. This motion will also be dealt with Monday.

Comptroller John Hodges reported the salaried staff at 1035 total \$302,294, and that in addition to this many employees were on reduced working hours.

Major Joseph A. Clarke, K.C., took up the employees' application, declaring in the city intended to give up its bondholders as provided for in the Fortin plan, their reductions in pay and time to be reserved to civic servants.

Delegates Steepe, McCallum, of the city, and McCallum, of the wage-earners were justified in asking for consideration at the present time on the proposed increase in pay.

"At the expense of the rate?" asked Mr. Clarke.

"I understand between 95 and 98 per cent of the employees are tax-exempt," said Mr. Steele.

"NO SQUAWK."

Concluding, he said civic servants had accepted cuts "without a squawk" and that returning prosperity with the resulting increase in prices must be considered.

Mr. Quinn, electrician, with the street railway department, stated employees had been given all the cuts requested of them. They had also voluntarily accepted cuts in pay, and the result was payment of salaries and had lost on them when they had been forced to take pay cuts to be retained in the market.

He believed council would adopt a similar policy, and the steam steam railroads—the restoration of pay cuts on a graduated scale over a period of years.

Mr. Quinn, electrical engineer, had increased wages, and in view of the general economic conditions, he believed the government should follow this lead.

"We are not asking for our employees' wages we are just reasonable," commented Major Clarke. "We shall accept the suggestion that the wage cuts in the public service of the employees are almost on the borderline. It's nonsense to pay people less than their interest and forget the city employee."

Fred Wood, street railway motor-man, speaking for the All-Canadian Federation, said he believed that city relief cases were demand allowing a 15 per cent increase in food allowances, and that while rent was still a factor in determining the amount of relief cases, the amount of relief cases should be given the same consideration. More money was needed to meet the cost of living and any increase in pay would mean more money in circulation in the city, he said.

LOWER-PAID MEN

Mr. Atalay, who spoke particularly for the lower-paid employees of the city, said the wage departments said that while living expenses had gone up 15 per cent, the cost of living had gone up 12 per cent, so the total reduction amounted to 17 per cent, while the cost of living in working hours was taken into account.

He said men were expected to do the same work in 17 per cent more hours as had formerly been required in 44, while employees had also been given a 15 per cent reduction through hiring of relief labor.

Council should award the possibility of a further reduction at the request of the unions, he said.

"BAND OF BRIGADES"

Major Clarke declared a band of brigades had demanded full integration of pension funds for bondholders and that the city was going to fight for full adoption of the 1936 code for civic employees.

A Birthday Message from
T. H. CAMPBELL

President and Founder of
Campbell's Furniture 21 Years Ago!

In Counting Over the Years—

It seems to me only a short time back, when preparing for our Anniversary Sale, I was suddenly awakened to the fact that it was my Twenty-First year in the furniture business in Edmonton.

It has been a pleasurable and busy occupation indeed during these past years, helping to serve a community of people of all walks of life such as we have had to deal with in this great land of Central and Northern Alberta, distributing as we do household requirements for the comfort of homes.

I feel grateful to all of our thousands of patrons, both past and present, who have welcomed our sincere and aggressive efforts to serve.

We have received in the past evidence of good-will and at times competition. We have built up quality and dependability and the representation of our merchandise at all times and up to date this pays by reason of the fact that we are still going forward.

We have watched a new generation grow. In the past we have waited on mothers with babies in their arms. These children have now grown up to have homes of their own, and these homes have been completely furnished at our store. We take pride, therefore, in considering ourselves a well established concern, having always striven all the time to serve you continuously in a fair, intelligent and courteous manner. And besides this, we find ourselves at the age of maturity. TWENTY-ONE YEARS TODAY.

Thanking you all on behalf of the Campbell Furniture Staff.

Yours very truly,
CAMPBELL'S FURNITURE LIMITED.

IMPORTANT MILESTONE

Twenty-one years of amazing whole block and carried out an extensive construction program.

Feature of the building program was the placement of large windows placed around the new building. These windows measure 260 feet of glass and are the largest single window in the whole dominion. Campbell's added further warehouse space and took over the offices of the Canadian Pacific Railway.

Two years later a large warehouse was built on the back of the original building, making it one of the largest in the city. Inside this warehouse are the car and district shipping departments, a second-hand department where second-hand and damaged furniture is renovated.

The second-hand department of the Campbell Furniture Company now enjoys an enviable position in the retail furniture business.

The original Campbell Furniture was established in 1916 and the new structure was situated at its present site. The second-hand furniture firm, however, was not open under the management of Mr. T. H. Campbell in 1916 because he believed Edmontons would patronize a concern offering dependable merchandise guaranteed in clean condition to those who could not afford first-class goods.

Proof that the venture was an immediate success was shown when the firm was forced to increase its staff. A small staff enabled the Campbell Furniture Company to operate with a minimum of expense.

In 1918 and 1919 Campbell Furniture Company took over the premises of the old Royal Litho and Print Company and the Winnipeg Safe Works, Inc., which is of the very latest design and rapid step forward. By 1923 the company had in control of the city.

THE SEND-OFF

With a smile to please everybody in his place, and perhaps of helping to heal the breach in the ranks of the ruling party, the gallant observer of the Alberta sends the insurgents home with this food for thought:

"The insurgents, while more bitter than ever before, lacked the will, the courage and discipline to make a stand. Tuesday night's attack were more the desperate last-ditch sniping of doomed rebels than the organized volleys so audible in previous attacks on the Government stronghold."

And this full, complimentary suggestion:

"This battle, unbroken and defeated, the insurgents may be satisfied—if such is their objective—that the repercussions of their insurgency will spread far beyond the walls of the legislative chamber and that seeds of discord, once sown, are extremely difficult to eradicate."

For having demanded that something be done to implement Social Credit, and kept demanding it until it was done, the insurgents are dismissed with the kindly intimation that they were trying to wreck the party and have proudly succeeded.

RECOVERY TROUBLES

The series of strikes in Edmonton during the last week have been the most serious proportionately. They were confined to laundrymen who can go along without much punch, and to packing plants which keep going in spite of them. The strikers did the sensible thing when they went back and asked for their jobs.

The men were right. Not only from a tactical point of view, but with regard to general conditions. If the rising cost of living is affecting the employees of these institutions, it is pinching everybody else. And all the employers, save one, seem to be doing the same.

One of the police horses taken at Barretts' stable, with Sergeant Gormley and a constable Baker by his side, galloped away when coming into Miller's stabling place south of Red Deer a few weeks ago. The horses were abandoned in a swamp about twenty miles east of Miller.

Reported that Sir A. P. Carson is to become lieutenant-governor of the North West, to make room in the cabinet of a captain of Chapleau, who aspires to fill the shoes vacated by the late lamented Sir George E. Carter.

In the dispute. But since Canada would be involved if Britain got into serious trouble, they are entitled to form their opinions as being more than could be expected.

Unquestionably the Spanish

Spanish faction has been recognized to be a properly certified belligerent, it would be in accord with international law to send merchant fleets under naval escort to Spanish ports. But zeal for the exercise of their rights has to be modified by a consideration of facts.

Whether they are authenticated belligerents or not, the fact remains that the insurgents have planted the waters of Bilbao with mines, and our, the British, are the only efficient factor in Germany and Italy, and ready to go off with deadly effects on contact.

The Hood carries a crew of fifteen hundred men, or more. Is it the idea that she should steam through those waters, at the risk of being blown up, to find the neutral British sailors there to help some shrimps earn fancy dividends by running supplies through an illegal but actually existing blockade?

The political future of Spain is not worth the lives of a ship-load of Canadians—or British. It is the duty of the Canadian government to give Hitler and Mussolini the excuse they are looking for to throw off the pretense of neutrality and back Franco to the limit.

In the closing hours of the session of revelations, Calgary's lady member came gallantly to the rescue of the premier, boldly declaring that it was she—not the premier—who told Vancouverites they had the mentality of thirteen year old boys. She was right, but she was also extremely foolish.

Quite likely she had heard that the Vancouver authorities were going to allow a crew of real estate boomers to cut a wide driveway through Stanley Park.

The series of strikes in Edmonton during the last week have been the most serious proportionately. They were confined to laundrymen who can go along without much punch, and to packing plants which keep going in spite of them. The strikers did the sensible thing when they went back and asked for their jobs.

The men were right. Not only from a tactical point of view, but with regard to general conditions. If the rising cost of living is affecting the employees of these institutions, it is pinching everybody else. And all the employers, save one, seem to be doing the same.

One of the police horses taken at Barretts' stable, with Sergeant Gormley and a constable Baker by his side, galloped away when coming into Miller's stabling place south of Red Deer a few weeks ago. The horses were abandoned in a swamp about twenty miles east of Miller.

SATURDAY—Breakfast: Cottage cheese; pineapple. Lunch: Spaghetti boiled in plain water and seasoned with butter; string beans; salad of raw celery. Dinner: Broiled lamb chops; cooked spinach; steamed carrots; salad of shredded raw cabbage and parsley; aspic.

BAKED GROUND CARROTS AND TURNIPS: Put a layer of the food grinder and unpeeled carrots and turnips in equal number of pieces. It is a good plan to bind first a carrot, then a turnip, and so on, to assist in thoroughly mixing them. Place the mixture in a shallow pan to a depth of one or two inches, and cover with water. No Mother Has the Right to Stand in the Way
When Her Children Are Ready to be Married—

If She Does, She is Selfish in the Extreme
DEAR MISS DIX—A splendid young man of my acquaintance has been engaged to a girl whom he loves. They are desperately in love with each other and would have married long ago except that the boy's mother has gone into her dotage every time he meets him. She is a very old woman now. They have waited, hoping that the mother would come to take a reasonable view of the subject and to have pity on them. Instead of that she has told him that she is going to die, but she won't. In fact, while the boy has been away, she has not even closed her eyes and accepts the situation since she cannot change it, and by the time there are grandchildren she will be thinking she made the match.

The thing to be done is to say no more to the mother, but for the young man to take his girl by the hand and step away from the parson and get married forthwith.

Of course, there will be a pretty scene. She will accuse him of ingratitude and tell him that she has given him a good home. He will tell her that he has broken her heart, and so on and so on. Probably she will tell him that he has killed her and that she is going to die, but she won't. In fact, while the boy has been away, she has not even closed her eyes and accepts the situation since she cannot change it, and by the time there are grandchildren she will be thinking she made the match.

There is really no other more despicable figure in the world than the woman who is so self-centered that she cannot see that her child lives in a state of gravity because mother passes. Her love for her children is not a beautiful, wholesome, natural affection. It is a perverse emotion, something dark and sinister, that causes instead of pleasure.

A real mother is a woman who is filled with tenderness and devotion to her children. She gives herself without stint to them. She watches over them night and day during their infancy, but she realizes that they must grow up and become independent men and women. When the time comes for them to go into the world she does not seek to hamper them. Instead she sends them forth with a smile and a good祝愿.

The real mother does not try to rule her children and keep them from growing up. She teaches them to stand upon their own feet. They develop into intelligent men and women, capable of using their own brains and judgment. After marriage they are able to stand on their own feet. The real mother makes herself an "old woman of the sea" around her children's necks. She tries to be a little of a burden to them as possible and to let them free to do their own thing.

But, ladies, there are a large number of mothers who do not take this broad view of life. They make of it a graft. They enslave their children to them. They bind their sons and daughters so tightly to them with the bonds of filial duty that the poor bewildered young people are afraid to break away from the comfort of their mothers. These mothers use any excuse, however unfair, which will keep their children from submission.

With tears, with regret, with ill health, with fits, with breaks in the heart, the mother wears down her daughter, or son, right to the bottom of her life, into submission. I have known families who have waited for forty years for Mother to die so that they could do what they wanted to do and have a little liberty.

Every grown man and woman must realize the utter self-sacrifice that is involved in giving up one's life to marry, and they are weak and foolish to sacrifice their own lives and that of the men and women who love them to an old woman's whims.

So I say to all such: Don't debate the question with Mother another time. Don't let her hamboise you with her threats of death, punishment, etc., until she will kill her, nor even if she is temporarily unhappy, call her bluf and let her away to the parson with the girl or man of your choice.

Your Children - By OLIVE RUBERTS BARTON

Adventure is the very breath of a young protecting. Not that caution can ever be wrong, but over-caution may be health-hazardous. We will allow John to go along with the natural study-clas, out to the woods to observe swelling buds, and to climb trees. We will not let him allow a dozen boys to go on a swim in a lake. If we did, and he swam a dozen, we might not live two even though we confined ourselves to swimming in lakes. Boys prefer to work out individual plans, rather than merely partake of the general scheme of nature to program. There is nothing of derring-do in it. And everyone of the mistakes of the past is the result of what makes adventure.

LESSONS ARE VALUABLE

The child will learn valuable lessons in self-reliance, in the importance of learning, to protect himself rather than depend upon protection. In the same way, we will allow a boy to prefer to work out his own plan, rather than merely partake of the general scheme of nature to program. There is nothing of derring-do in it. And everyone of the mistakes of the past is the result of what makes adventure.

SO DON'T BE AFRAID

the boy or girl who gets into trouble, or changes his or her ways, for a show.

However, for safety's sake, adventure narrows, and our children cannot longer run into the deep woods and cause to pirate. But the spirit of adventure is to overlook the dream.

BALKING AT REALISM

Here we are practical, realistic, and we are not afraid to hold back. Instead of second hand, and at the same time we are steadily denying children their dreams.

In many cases it can't be helped. Cities are too crowded to let children leave home, and the hazards today of cars, the country bather. And then, most parents in the city are afraid to let their children go to school, or to let them out of their sight.

But sometimes I think we do too

much to hold back the children.

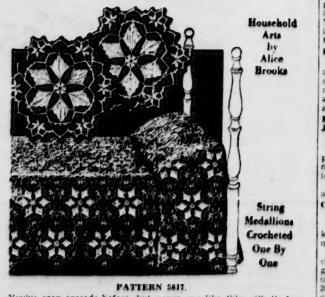

It might be well not to hold the reins too tightly. When we deprive children of the opportunity to explore and give too much ground to fear.

To face problems and overcomes them is the best way to teach this thought to a child.

Are you being overly apprehensive about your child's safety? If so, you are probably holding back the child, withholding consent from natural and, we'll say, reasonably safe adventure?

Looking Them Over
By Jack Kelly
The Gals Want In
Shanks Is Ready
Logical Start

The baseball fraternity in central and northern Alberta, etc., into Saskatchewans is apparently making the most of their opportunities and many games are being played at the schools which Bob Speer will open at Broadview Park here next Monday. Upwards of 30 applications are already in and more coming daily.

The ball students will be divided into two classes. One will start daily at noon and run through to 3:30 p.m., while the other will run daily from 5:30 p.m. until dark. On Saturday, classes will work from 9:30 a.m. until 4:00 p.m. The late afternoon class is for those who are working and for school students. The park will be closed to everyone except enrolled students and their parents.

New possibilities for Bob Speer were opened up the other day when a girl wrote in to find out if she could take the baseball course. Dick had to decline her entrance application, but he is considering the idea of putting on a school for girls later.

Dick brings 35 years of experience in major and minor baseball to his school. There is hardly an organized league that he has not either played in or managed a team in. If there are any wrinkles that he doesn't know, they are not worth bothering about.

Mr. Shanks Will Oblige

YESTERDAY the suggestion was thrown out that George Shanks should be matched with Jake Tebo, the Fairview bantam who is under the tutelage of Jack Clegg. George, however, had no objection to the fight, which was agreed upon and kept off-mintions. Robbie Mobbed and Lefty Adams fainted as the bell rang.

Errol Robertson, the minor league manager brought in by Robbie, was matched as he wandered into the ring with arms about the little Marty Hart.

Everyone had the opinion "Robbie" gave one of the greatest performances of his career. He almost had his hand and shoulder broken by handshakes and backslaps.

"They just can't keep you in the minors," Harry told him. "You would be a star in the majors." "Boy, it's great," Marty said.

"First I'll award me the lady. Then I'll award you the title. You've got two goals, think I was celebrating."

FIGHTING FISTICS

Late last Friday Austin threw his crutches on the floor and did a war dance on his good leg.

"I'm going to teach each of the broken-legged guys on this team," he advised to Jack Adams. The owner of the new boxing club, and Orlie Roulston, yelled agreement.

Cheers went up when the "Silver Fox" of the city, Eddie Pratt, and Lester Patrick entered the room.

"I let everyone know I beat the Red Deer team," said Eddie.

"I beat the Red Deer team."

British Coronation Commemoratives

Announcement has just been made that a special Coronation Commemorative Stamp Issue is in course of preparation for the 45 Crown Colonies of the British Empire.

If the phenomenal current interest in British stamps continues — as it undoubtedly will — these Coronation sets will be picked up quickly. They will be issued for sale on May 12, and will be removed from sale at the end of the year. Stamp collectors will do well to remember the Silver Jubilee Stamps of 1935.

We expect to receive our supplies of the Coronation Issues at an early date, and to fill all orders from our customers.

Definitive information has not yet been received from all the Dominions and their dependencies, regarding Coronation issues. Until such time as this is complete, we are unable to quote prices for the Dominions.
